Dear David

Please find the testimonial below in relation to the work undertaken by CA Tax Solutions Ltd.

Afortis Ltd manage the tax affairs of a number of extremely successful business and sports individuals. One element of taxation is capital allowances; the legislation surrounding this area is particularly complex, meaning that its qualification, identification and calculations must be carried out by experts in the appropriate field. It is for this very purpose we employ the services of CA Tax Solutions Ltd.

During the past 18 months CA Tax Solutions have acted on our behalf with a number of our clients, in every instance they have been able to identify significant additional capital allowance benefits from property portfolios with a combined value in excess of £100,000,000. Their expertise in this area has enabled our clients to save considerable amounts of money, in many instances resulting in sizeable tax rebates.

The whole process is managed in house; including any capital allowance queries from HMRC, meaning our clients can concentrate on their core tasks whilst their capital allowance affairs are managed by the specialist at CA Tax Solutions.

Our relationship with CA Tax Solutions has allowed us to add another layer of value into our proposition and deliver additional real benefits to our clients. We continue to roll out this service across our client base and would encourage any commercial property owner to contact David and the team at CA Tax Solutions to explore the potential of working together.

Kind Regards

Yours sincerely

Geoff Dallimore
